

Shawn Peterson  
Bay Area Grading and Paving  
4251 Hwy. 116 South  
Sebastopol, CA 95472

Dear Shawn,

It has been a true pleasure working with you and your crew again. Your team did an incredible job of turning a two-day job into one day. The work was completed as smooth as possible even with summer program in session, without setbacks and minimal disruptions to the traffic flow. The task at hand was to grind out existing pavement approximately 6,980 square feet. Grade and re-compact existing base rock to 95% or better. Apply tack coat and repave with 3" of hot pavement. This is the second job you have done for MA and this letter is long overdue. I would like to thank you and your crew for providing us with exceptional service. Please feel free to share this letter with future clients.

Sincerely,

Alejandro Figareda  
Operations Supervisor
